### Lord Churchill Goes to the Front in Uniform of Queen's Own Hussars

(By Associated Press.)  
LONDON, Nov. 17.—Winston Spencer Churchill, ex-first Lord of the admiralty and chancellor of the Duchy of Lancaster, has left for the front. He left his wife at the station and entered a special car unrecognized. He belongs to the Queen's own Oxfordshire Hussars. He wore its uniform. Churchill served before in South Africa on the Nile and at Khartum.

## NEVADA FILM COMPANY IS HERE TO REMAIN

PLANS ARE MADE TO KEEP THE  
STUDIO OPEN THE WHOLE  
YEAR ROUND

W. L. James, business manager of the Nevada Film Co., Inc., of Tonopah, states for the benefit of Tonopah people, in general, that his company is to be a permanent corporation with headquarters in Tonopah, and that it will work the year around, providing pictures of various kinds. There is considerable talk around town regarding this company, many being under the impression that the purpose is to take one picture and leave. Such did happen, we regret to say, several years ago, but Mr. James has the plans drawn for the studio and as soon as arrangements are made for the ground, work will begin, which will be about Dec. 1 to 15. The company will employ 15 regular people the year round and the monthly pay roll will average \$3,000. Mr. James wishes to impress the people that this corporation is legitimate and has come to stay.

## BUTLER IMPROVES IN SEVERAL WORKINGS

STOCK SHOWS MATERIAL IM-  
PROVEMENT ON SALES EAST  
AND WEST TODAY

Although there were no sensational developments, the Jim Butler company has made some very appreciable advances during the past several days. In the Desert Queen shaft the 506 west drift is showing three feet of good ore. The 618 raise has seven feet of very good ore, this development being one of the most important in the district in view of the dimensions and value of the lens. The 619 raise shows 18 inches of fair grade ore.

The south branch of the south vein has been picked up. Raise 714 shows three feet of good ore. The chief development in the Wandering Boy was catching the faulted vein on the east drift from the 508 raise. It shows two and one-half feet of low grade ore. The other openings in the property are unchanged from last week, the tonnage extracted and the values being just about the same. The stock in the incorporation advanced appreciably today, but the same may be said of nearly all the other big properties in the camp and is ascribed to the raise in the price of silver rather to any change in physical properties.

"Major Nickolson had a severe wound in the spine. He feared complete paralysis and became melancholy. It a fit of melancholy, as has been established by physicians, he took his own life. Nickolson was an officer commanding high respect, who bore his captivity with dignity. He had made himself beloved among the officers in captivity by his lovable nature and had won the respect of the German officers placed over him through his always correct conduct."

The general says Nickolson even left a note, stating that his suicide had nothing to do with his treatment. In order that his coffin might not lack every decoration, a wreath was bought for four marks by the Red Cross physician, since no other funds were available.
